

HygeiaMedical™

MALAYSIA EDITION 2025

Hygeia Medical

HYGEIA MEDICAL IS MORE THAN A SUPPLIER OF MEDICAL INSTRUMENTS

Expertise

Hygeia Medical has some of the most experienced and reputable experts in the field among its associates, partners and suppliers

Experience

Hygeia Medical is working with people with combined centuries of experience in the fields of manufacturing, maintenance and repair of surgical instruments in the ASEAN region.

Reliability

Hygeia Medical is being relied on by medical professionals from around the ASEAN region as their primary quality supplier of choice.

Commitment

Hygeia Medical is committed to becoming the regional standard for affordable quality instruments and to “work global but act local” by sharing know-how and expertise with our local partners.

Quality Management Systems

HYGEIA MEDICAL LTD AND OUR SUPPLIERS ARE ISO AND CE CERTIFIED

Hygeia Medical Ltd

Hygeia Medical is MDR registered with EUDAMED [SRN IE-AR-000023941](#) and further ISO 9001:2015 (IE90692A thru 24/11/2026) and also ISO 13485:2016 (IE90692H thru 24/11/2026) as well as CE certified by LMS Certification Ltd of Manchester, England.

Hygeia Instruments (Malaysia) Sdn Bhd

Hygeia Instruments is GDPMD(MYG11206674 thru 15/11/2026) certified for import, distribution, storage and documentation of medical devices by CARE Certification International (M) Sdn Bhd of Selangor, Malaysia. Concepts for additional certifications are being implemented step by step

Third Party Suppliers

As a rule all our third party suppliers are ISO certified and compliant, hold the required CE declarations and provide full documentation for all deliveries. All instruments are again individually inspected by Hygeia Quality Control and lodged prior to shipping.

HYGEIA MEDICAL LIMITED, EIRE

Kyleteologue House, 9 Cherrywood
Dundalk 21222, Co. Louth, Ireland

Hygeia Medical Limited Ireland is the principal supplier of HygeiaMedical branded instruments, as well as of a number of other reputable brands from Germany, Turkey, Korea, Taiwan, etc. to partners and associates in the ASEAN region.

Originally named Clearview Europe Limited, the company was purchased by its current owners in 2017 for the express purpose to distribute general and proprietary surgical instruments in the ASEAN countries and offer technology transfer and medical finance innovations to associates and partners across the region.

HYGEIA MEDIZINTECHNIK & -VERTRIEB

PF2513 Hindenburgstrasse
46395 Bocholt, NRW, Germany

In 2019 one of the partners also established a presence in Germany (**Hygeia Medizintechnik**) in Bocholt, near Düsseldorf, to serve as liaison to German suppliers and establish distribution links for devices, components, and consumables sourced from manufacturers in ASEAN countries.

A second German presence which specializes in distribution of disposables and supplies the veterinary market, followed in 2021 (**Hygeia Medizinvertrieb**) in Wiesbaden, near Frankfurt.

HYGEIA MEDICAL (AUSTRALIA) PTY LIMITED

Hygeia Medical and Instruments recently set up this marketing office with local partners in Australia to become the distributor of our brands.

HYGEIA MEDICAL INSTRUMENTS PVT LTD

Hygeia Medical and Instruments established this company with local partners to produce low volume, made-to-order instruments that are no longer offered by the original, European manufacturers.

PT. HYGEIA MEDICAL INDONESIA

Formed to be our distributor in Indonesia, the plan is to emulate the Hymed concept and offer in-house warranty and repair services, before moving to finishing instruments, ultimately setting up a domestic manufacturing facility for the ASEAN market.

HYGEIA INSTRUMENTS (MALAYSIA) SDN BHD

3a-4-139 Bukit Jambul Complex, Jalan Rumbia
Bayan Lepas 11900 Pulau Pinang, Malaysia

The company is the authorised representative, sole importer and chief distributor of HygeiaMedical branded surgical instruments and a variety of other brands in Malaysia. The registered office of the company is in Selangor and principal place of operations is in Penang, with a sales office in KL.

The company is holding the MDA license number MDA-1590-WDP121 and is also authorised to participate in public projects and tenders with CIDB B0102202008250001070882.

Through its connections in the industry and due to its location in the major regional medical manufacturing hub of Penang, the company also acts as purchasing agent and supplies components and devices to customers in Europe, the United States and the Middle East.

HYMED MANUFACTURING SDN BHD

The company was established in 2022 by Hygeia and local partners in Penang to provide local warranty services and repairs of surgical instruments. It is also planned to offer training facilities and technology transfer as part of a shift towards local manufacturing and assembly. One step towards this goal is the establishment of workshops in strategic locations with other local partners.

HYPHARM HEALTHCARE SDN BHD

In 2023 Hygeia Medical and Hygeia Instruments established HYPHARM in order to expand into the IV testing and pharmaceutical sectors with focus on tropical diseases, common ailments and oncology. The company focuses on importing and distributing test kits and reputable generic medicines, but intends to expand into local and regional assembly and domestic production in the future.

CATARACT REMOVAL SET (GA8363521-55129)

Hygeia Medical also produces a large number of specialty instruments, sets and devices in cooperation with several well known brands from around the globe. Among these are dental implants, orthopedic implants, but also laparoscopic instruments for key-hole and minimal invasive procedures, many different types of alligators for ENT, as well as most kinds of laryngoscopes, electrosurgical devices, single use proctoscopes, devices and instruments for otology, ophthalmology and even personal blood glucose measuring devices.

We are currently offering two types of reusable (autoclavable) click-line-like handles with over 20 attachments, as well as a bipolar reusable forceps.

Also available are reusable clip applicators, needle holders, claw and spoon forceps, suture passers, trocars, retractors, grips, and suction components. Furthermore we have knot pushers, screws, needles, hooks and many more.

Lastly we offer disposable dissecting forceps, Metzenbaum scissors, and a variety of grasping forceps.

Our Aesculap type **Large External Fixator Sets** (MDA Registration GA9297823-149650)

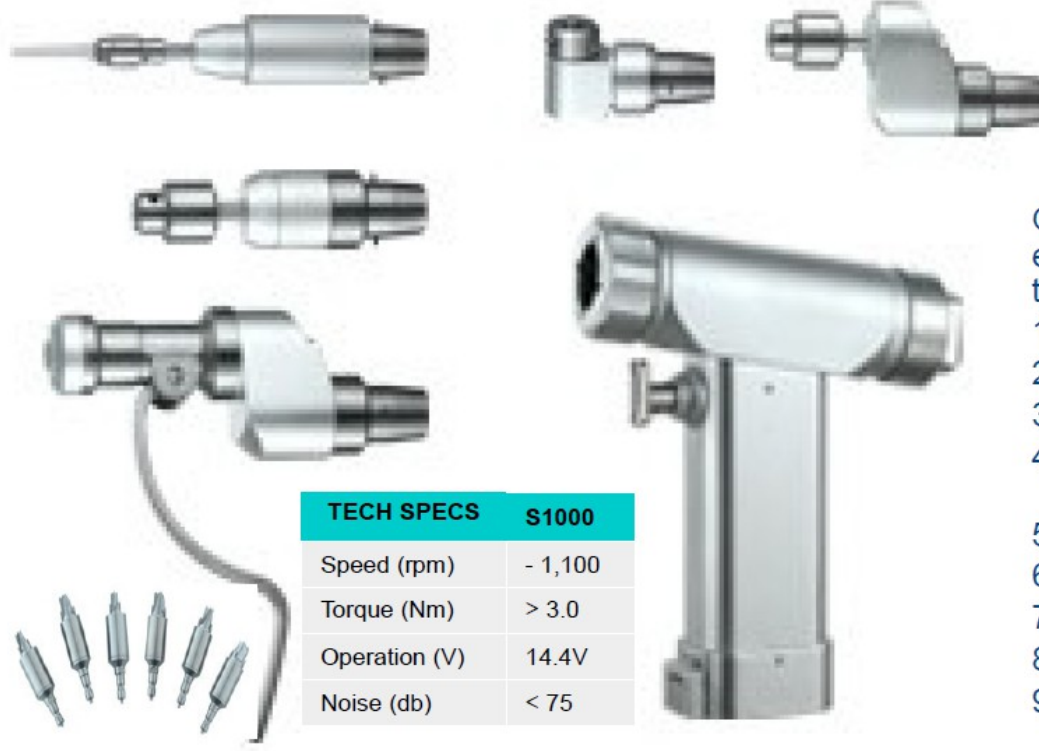

come either as fully compatible component sets, or as complete assembly kits, including all required tools and implementa for assembly and deployment. And we can get our workshops to tailor specific items to your particular need if and when required.

And the German-made orthopedic implants of the INTERCUS brand for whom Hygeia Instruments is the sole regional distributor are currently undergoing evaluation by the MDA.

We offer a number of Laryngoscopes for emergency and for surgical use in a variety of types, shapes & size ranges from neonatal all the way to XL adults. All blades and casings are made from top stainless steel and many of the blades use the latest in fiber optic technology, such as the Macintosh blades with adjustable tip and spare LED bulbs. All sets are packed in durable plastic containers with felt casing for safe storage and transportation.

MEDICAL POWER TOOLS

Our multi-functional medical electric drill sets can operate these attachment options:

- 1、Canulate drill.
- 2、Oscillating saw.
- 3、Bone drill
- 4、Dual function acetabulum reaming.drill
- 5、Cranial drill.
- 6、Cranial bur.
- 7、Sternum saw.
- 8、Reciprocating saw.
- 9、K-wire drill

REPAIRS, WARRANTY SERVICE & MAINTENANCE HYMED MANUFACTURING SDN BHD

Through HyMed, a joint venture between Casselman Surgical in Penang and the Hygeia Group, we are able to offer in-country QC, warranty repairs and maintenance services for all products under the HygeiaMedical brand, typically in two weeks, or less. Furthermore HyMed can also repair and refurbish third party branded instruments and devices, quickly and efficiently

On this basis HyMed will also work closely with the upcoming Hygeia School of Medical Technology to establish training centres and workshops in strategic locations around the country.

If you are an importer or distributor who needs warranty services for foreign branded products, or a POC operator who needs instruments repaired and refurbished, or if you are looking for ways to better train your med techs and instrument maintenance staff, we are the people to talk to.

We can help with contract manufacturing, regional component sourcing and local assembly.
